

SAFETY DATA SHEET

Complying with OSHA Hazard Communication Standard 29 CFR 1910.1200 (GHS)

Product: **G-SCRUB CLEAN — Foaming Shoe Cleaner** · Version 1.0 · Issue date: September 4, 2026

1. IDENTIFICATION

Product name	G-SCRUB CLEAN — Foaming Shoe Cleaner
Product form	Mixture (aqueous solution)
Recommended use	Cleaning preparation for footwear (athletic shoes, golf shoes, sneakers, cleats) and sports gear
Uses advised against	Not for use on skin. Not a laundry detergent. Not a disinfectant or sanitizer. Not for internal use.
Supplier	G-Scrub LLC 17373 Cagan Crossing Blvd, Clermont, FL 34714, USA sales@g-scrub.com · https://g-scrub.com
Emergency telephone	(407) 620-0965 — Mon–Fri, 9:00 AM–5:00 PM ET

2. HAZARDS IDENTIFICATION

Classification (OSHA HCS 29 CFR 1910.1200): Not classified as hazardous.

Hazard pictograms	None
Signal word	None
Hazard statements	None
Precautionary statements	P102 — Keep out of reach of children. P305+P351+P338 — IF IN EYES: Rinse cautiously with water for several minutes.
Hazards not otherwise classified	None known. Direct eye contact may cause transient discomfort, as with any cleaning product.

3. COMPOSITION / INFORMATION ON INGREDIENTS

Mixture: purified water and a surfactant concentrate.

Component	CAS No.	Concentration
Water	7732-18-5	Balance

Cocamidopropyl betaine	61789-40-0	0.14–0.71%
Sulfuric acid, mono-C12-18-alkyl esters, sodium salts	68955-19-1	0.14–0.71%
Amides, coco, N-[3-(dimethylamino)propyl], N-oxides	68155-09-9	0.14–0.71%
2-Phenoxyethanol	122-99-6	~0.07%
2-Methyl-2H-isothiazol-3-one	2682-20-4	~0.014% (≈140 ppm)

No component is present above the OSHA disclosure threshold for a hazardous mixture.

4. FIRST-AID MEASURES

- **General:** No special measures required. Move the affected person to fresh air. Avoid contact with eyes.
- **Inhalation:** Unlikely under normal use. If discomfort occurs, move to fresh air.
- **Skin contact:** Wash with water. If irritation develops, consult a physician.
- **Eye contact:** Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do. If irritation persists, seek medical attention.
- **Ingestion:** Drink plenty of water. Do not induce vomiting. If discomfort occurs, seek medical attention. Never give anything by mouth to an unconscious person.

5. FIRE-FIGHTING MEASURES

- Aqueous product — **not flammable**.
- Suitable extinguishing media: CO₂, dry powder, or water spray (as appropriate to the surrounding fire).
- Special hazards: None known. No special protective equipment required for firefighters.

6. ACCIDENTAL RELEASE MEASURES

- **Personal precautions:** Caution — spilled product makes floors slippery.
- **Environmental precautions:** No special measures required at the quantities handled. Avoid large discharges to waterways.
- **Cleanup:** Absorb with absorbent material (cloth, sawdust, sand) or flush with plenty of water.

7. HANDLING AND STORAGE

- **Handling:** No special precautions when used as directed.
- **Storage:** Store in a cool, dry place in a well-closed container. Avoid extreme temperatures and freezing.

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Occupational exposure limits	None assigned to the components of this mixture
------------------------------	---

Engineering controls	Normal general ventilation
Respiratory protection	Not required under normal conditions of use
Hand protection	Not required under normal use. Gloves recommended for prolonged, repeated contact (e.g. production).
Eye protection	Eye protection when handling large volumes (dilution, filling). Not required for consumer use.

9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance	Clear, free-flowing liquid
Color	Colorless to slight gold tinge
Odor	Practically odorless
pH	7.6 (measured on finished product)
Melting / freezing point	~0 °C (aqueous base)
Initial boiling point	~100 °C (aqueous base)
Flash point	Not applicable — not flammable
Flammability	Not flammable
Relative density	~1.00
Viscosity	Low (free-flowing)
Solubility in water	Complete
Explosive / oxidizing properties	None

10. STABILITY AND REACTIVITY

- **Reactivity / chemical stability:** Stable under normal conditions.
- **Hazardous reactions:** None known.
- **Conditions to avoid:** Extreme temperatures, freezing.
- **Incompatible materials:** Do not mix with bleach (hypochlorite) or other cleaning products.
- **Hazardous decomposition products:** None known.

11. TOXICOLOGICAL INFORMATION

- **Acute toxicity:** Based on available data, the classification criteria are not met. Concentrate ATE: LD50 oral 12,837 mg/kg; the diluted product is of lower toxicity.
- **Skin corrosion/irritation; serious eye damage/irritation:** Classification criteria not met.
- **Germ cell mutagenicity, carcinogenicity, reproductive toxicity, STOT (single and repeated), aspiration hazard:** Classification criteria not met.
- **Likely routes of exposure:** Dermal and ocular contact.

12. ECOLOGICAL INFORMATION

- **Aquatic toxicity:** No specific data available for the diluted product. Avoid large discharges to the environment.
- **Persistence, bioaccumulation, mobility, PBT/vPvB:** No relevant information available.

13. DISPOSAL CONSIDERATIONS

Dispose of in accordance with local, state, and federal regulations. At household use quantities, rinsing to the sanitary sewer with plenty of water is acceptable. Containers may be recycled after rinsing.

14. TRANSPORT INFORMATION

Not classified as a dangerous good under USDOT (land), IMDG (sea), or IATA/ICAO (air) transport regulations. This product is not a hazardous material for shipping purposes.

15. REGULATORY INFORMATION

- **TSCA:** Components comply with the inventory requirements of the U.S. Toxic Substances Control Act.
- **California Proposition 65:** This product does not contain chemicals requiring Prop 65 warning.
- **FIFRA:** This product is **not** registered as a pesticide with the U.S. EPA and makes **no antimicrobial claims** (it does not disinfect, sanitize, or kill germs).

16. OTHER INFORMATION

Issue date	September 4, 2026
Version	1.0
Prepared by	G-Scrub LLC

Hazard statements referenced for components in pure form: H302 Harmful if swallowed · H315 Causes skin irritation · H319 Causes serious eye irritation · H317 May cause an allergic skin reaction. *At the concentrations present in this finished product, the mixture does not meet the classification thresholds.*
